Price Includes Paint Materials: _____ Subtotal $ 0.00

* Note: Using a credit card for payment will result in a 3% convenience charge. *Payment Method: _____ Discount $

Special Notes: By completing the following steps the moisture will be released and then will encapsulate the ceiling so that you will not experience ani more peeling or bubbles. We recommended for the bathroom not be in use for as long as possible to get the best results. (1+weeks) If any other leaks or drips from roof or fan vents are present we will experience the same issue. If none are present then the ceiling with the special coatings and extra preventative measures should resist moisture issues.

Final Price $ 0.00

All our jobs are warranted for 2 years labor and 5 years on painted surfaces. We use quality paints and supplies.
